WEDNESDAY EVENING, MAR. 5, 1902.

Hon. ADLAI E. STEVENSON in a recent letter points the way to a new democratic victory by recalling how all the later triumphs of the party have been won. He cites the Tilden platform of 1876 as a suitable model to build upon in 1904:

"We denounce the present tariff levied upon nearly four thousand articles as a masterpiece of injustice, inequality and false pretence. It yields a dwindling, not a yearly rising, revenue. It has impoverished many industries to subsidize a few. It prohib its imports that might purchass the products of American labor. It pro-motes fraud, fosters smuggling, enriches dishonest officials and bankrupts hon-est merchants. We demand that all custom house taxation shall be only for

In (commenting upon this letter the Philadelphia Record says:

"In repealing taxes that put money in the Treasury and retaining taxes that put money into the pockets of favored monopolists the republican party is sgain, as after the civil war, prepar-ing the way for its own downfall. The democratic party needs only to keep faith with itself and abandon its wan-derings after strange gods in order to secure the control of the government and return it to its ancient moorings."

THERE IS still unrest in China another rebellion having broken out in Kwang Si province, The turmoil is spreading and no one can say what dimensions it is destined to assume. The celestial empire has played a conspicious part in history during the past few years, and its wars and rumors of wars cause anxiety in other countries. It was supposed a few months ago that affairs in China had settled down to a normal basis, an impetus had been given trade and the outlook was promising. This new trouble will, of course, produce a commercial depression which will be felt by other countries as well as that in which the insurrection exists.

IT IS with regret that Virginians read of the scenes now being enacted in Norfolk, the result of a strike of street car operatives. Heretofore such procedures have been enacted north of Mason and Dixon's Line. But the last few years have wrought many changes, and now the Old Dominion is the scene of disgraceful strike riots, and, worst of all, a mob is led by a woman in a Virginia city. We are not sitting in judgment on the friction between the companies and the men, but voice the sentiments of many when we say such conditions are unfortunate and the hope is expressed that an amicable settlement of the trouble may soon follow.

THE CUTTING down of the tariff rates per cent. has an appearance of liberality. But when it it is remembered that a cut of one-quarter in the Dingley duties still leaves them higher than on imports from the Philippines by 25 duties levied on the like material in any other country, and that, as a matter of fact, trade between the United States and those islands should be free, the appearance of liberality vanishes. The tax is a wanton invasion of the rights of both exporters and importers.

THE LEGISLATURE.

Yesterday was both ladies' day and Confederate day in the legislature, and patriotism was on top and oratory effer-vesced in a congenial atmosphere. The Senate was crowded with lady members of the various Confederate organiza-tions, who railied there for the purpose of securing an appropriation to keep the Confederate cemeteries in repair.

They generously applauded every centiment in favor of their plan, and hissed the speakers who demurred at he expenditure.
